Summer Internship: Survivor Support Group Intern
Respect Program

To Apply: Visit bitly.com/respectinternship

Schedule requirements: Scheduling at student/supervisor discretion. Bi-weekly meetings TBD.

Position Type: Part-time, Unpaid
Organization: Office of Health Promotion (OHP)’s Respect Program; Community Portfolio, Division of Campus Life
Supervisor: Wanda Swan, MA; Associate Director for the Respect Program, 404.727.7388; wanda.swan@emory.edu, 1525 Clifton Rd, Suite 103I, Atlanta, GA 30324

Expectations of All Office of Health Promotion Interns:
- Participate in an orientation to the OHP department and health promotion in higher education, including all required reading.
- Develop and meet learning outcomes consistent with guidance provided by Supervisor/OHP Staff.
- Represent the Office of Health Promotion with professionalism; make appropriate referrals; sign confidentiality agreement and wear identification on-site as needed.
- Other duties as assigned.

(TENTATIVE) Position Description for Survivor Support Group Intern:
- Develop an understanding of the Respect Program, as well as theory and practice related to interpersonal violence on college campuses, and the Emory University context.
- Create literature reviews as needed relating to community and campus-based peer survivor support groups for intersecting identities.
- Compile best practices for curriculum development, effective and sustainable leadership structures, and facilitator training credentials related to this topic.
- Develop multilateral agreement templates that outline specific lines of action related to the facilitation and learning objectives of a peer-led survivor peer support group.

Minimum Qualifications: We seek candidates with an interest in public health/violence prevention/education work who are dependable, highly motivated, efficient, organized, detail-oriented, able to work both independently and collaboratively, and able to multi-task effectively. Proficiency in Word and Excel is required.
Preferred Qualifications: Experience with Microsoft Office products and databases, especially Excel. Experience with SPSS and SurveyMonkey a plus. Graphic design and social media experience a plus. Excellent communication skills, including developing and delivering presentations and/or trainings.
