EMORY UNIVERSITY STUDENT HEALTH AND COUNSELING SERVICES

ADHD PSYCHOLOGY TESTING LIST

Psychologists (PhD) Available to Test or Provide Behavioral Treatments to Emory Students for ADHD/ADD

Check with your insurance company to see if they cover some of the cost of testing. The average cost is approximately $1500. For those with the Emory/Aetna Student Health Insurance, this plan applies coverage for ADHD testing if you see a CORE network provider. For those with other insurance, please check with your provider for benefit coverage.

ADD/ADHD Clinic at Department of Psychiatry/The Emory Clinic:

- **Location:** 12 Executive Park Drive, Atlanta, GA 30329
- **Contact phone number:** 404-727-3443. The phone will be answered "Child and Adolescent Mood Program."
- **Scheduling Appointments:** Students should ask for an appointment in the ADHD Clinic ‘for ADD/ADHD testing’. The receptionist will schedule the student.
- **Insurance Issues:** As a part of The Emory Clinic, the ADHD Clinic is a Core Provider under the Emory/Aetna Student Health Insurance Plan. New students who are insured by the Emory/Aetna Student Health Insurance Plan are required by the policy to obtain a referral from Emory University Student Health and Counseling Services (EUSHCS) for psychiatric and psychological care outside Emory Student Health and Counseling Services. Without a referral, students cannot receive coverage for this specialist care. To obtain a referral to have ADHD/ADD testing or to see an outside psychologist or psychiatrist, please contact the Counseling Center at 404-727-7450. The referral will be generated internally and will be submitted to the Emory/Aetna Student Health Insurance Plan electronically.
- Emory Healthcare is also a PPO provider under many/most major national insurance plans. The student should ask about insurance issues and coverage prior to their first visit, not after.

Psychology Resources in the Surrounding Community:

You might consider an off campus psychologist depending upon your insurance coverage (certain psychologists might be on your PPO provider list and others might not).

Community Psychology Providers: Includes testing and behavioral treatments of ADD/ADHD
