Student Counseling Center

The staff at the Student Counseling Center knows that a student is in a transitional period and can be at a time of pressure and stress. We try to help students understand their role, find ways of coping with stress, and gain better stress management. Pursuing these goals, we provide services to important areas such as group and individual counseling including psychiatric consultation, consultations with workshops, and referral services. We have a diverse staff knowledgeable about, and sensitive to, working with the needs of a diverse student body. The Student Counseling Center staff is comprised of clinical social workers, psychologists, and psychiatrists.

All regularly enrolled, fully registered Emory undergraduate and graduate students are eligible for the services at the Student Counseling Center.

Group and Sport-Related Individual Counseling

Groups focus around support and feedback from peers and learning specific skills and provide a chance to examine and change interpersonal problems as they actually occur. Individual services provide a place for one-to-one discussion of personal problems and possible solutions. Consultation therapy is also available.

Psychology Services

Psychiatric evaluation and prescription medication treatment by Emory health professionals is available in the on-call 5100 Clifton Road Building. Call 404.727.7101 for an appointment.

Refrigeration Services

Students who need services at the Counseling Center should call and may be referred to a network of excellent therapists and specialty centers in the area. Generally, the student’s health insurance will cover a portion of the costs.

Initial Contact

An Emory student interested in arranging an appointment can call 404.727.7101 to receive an initial consultation and to schedule an initial evaluation. Please call 404.727.7101 to schedule an initial evaluation with a counselor. Additional stressful situations can be covered by the use of the Counseling Center’s consultation and workshops.

Confidentiality

The Counseling Center maintains strict rules of confidentiality. With few exceptions (such as the need to tell when a client is a threat to self or others or a court order), information shared between client and counselor can remain confidential.
